Suitable for use in kitchens and food preparation areas.

Task

Kitchen Oven & Grill Cleaner

Chemical

K90 Oven & Grill Cleaner

Procedure

1. Turn oven down so that temperature is below 80°C.
2. Apply K90 to insides of oven via extension trigger, taking care not to let the chemical come in contact with the door seals.
3. Close door and run oven for approx. 5 minutes.
4. Turn oven OFF and allow to stand for 8 – 10 minutes.
5. Use a scraper or griddle pad to remove stubborn build up.
6. Wipe down oven with a sponge or absorbent cloth.
7. Rinse out oven with warm water.

⚠ Precautions

- Always wear rubber gloves and safety goggles/face shield when handling K90.
- Wear a PVC apron if available.
- Do not operate fan on fan forced ovens when applying K90.
- Always read SDS & labels before using chemical product.
